PROFESSIONAL EXPERIENCE

Amdari, United Kingdom

February 2025 – Present

Data Analyst Consultant (Remote)

- Developed and implemented automated key sales metrics using Office Scripts, significantly reducing manual calculation efforts and enhancing the efficiency of sales performance monitoring.
- Built an interactive Product Performance Analysis dashboard in Tableau to track user engagement and app performance, facilitating data-driven product improvement initiatives.
- Conducted comprehensive Exploratory Data Analysis (EDA) on a credit portfolio dataset to identify key risk indicators, using SQL for data extraction and analysis.
- Developed and optimised a multi-dashboard Power BI report to strengthen loan monitoring and credit strategy.
- Presented analytical findings to stakeholders, delivering actionable recommendations based on data-driven insights.

Precious Cornerstone University, Nigeria

October 2022 – October 2023

Office Administrator

- Supported management by preparing data-driven reports and presentations to support effective planning and decision-making processes.
- Managed and analysed departmental data, improving data accuracy and retrieval efficiency.

- Coordinated administrative workflows and implemented process improvement to enhance operational efficiency.
 - Leveraged data organisation and reporting tools to monitor performance and resource utilisation effectively.
-
